

Provisioning

Every charter vacation starts the week with a complimentary boat starter kit of all the essentials to get the week off to a worry free start.

Special Provisioning Services

As well as a complimentary starter kit you can opt for a hassle free charter and let us take care of all your provisioning requirements. For this you can select from either of the following options:

- **Shopping delivered to your boat** – select all the items you require off the shopping list and we will do all the hard work. Simply arrive at your boat at the start of your charter to find the cupboards stocked with fresh supplies brought in that morning.
- **Catered meals** – There is no need to worry about whose turn it is to cook next. Simply request the meals you wish for throughout the week and these will be provided in the form of ready catered meals.

Mid-week Resupply

Don't worry about trying to find the local grocer in the middle of the week. Simply let us know that you've run short of a few essentials and 24 hours later we'll meet you in at a suitable location to re-supply you.

Special Requirements

If your celebrating a special occasion or merely a week of work and want to lay on something extra then please let us know and we'll do all the leg work to make the celebrations memorable.
